Remote Learning

Since the enforced school closure in March, students have moved to a remote learning model, with lessons offered and work set broadly as normal. We have been delighted with the resilience and engagement of our students (and the speed with which our staff have adapted to becoming excellent online tutors!) and have enjoyed reading feedback from parents and students on their experience of remote learning:

“Just want to say thank you for all the effort of the school towards the learning of my daughter and the other students. I really do appreciate it.”

Year 12 Parent

“Thank you to the team for your understanding, thoughtfulness and support.”

Year 13 Parent

“My son has enjoyed his lessons online. His teachers have been readily and very happily available for him as they always were, not just now.”

Year 12 Parent

“Our remote learning system has helped me to maintain a good routine and a positive attitude whilst encouraging my independence and tenacity.”

Year 12 Student

“Remote learning has helped to add a sense of normality during this time which has encouraged me to remain focused on my future aspirations.”

Year 13 Student

Year 13

The cancellation of Year 13 exams has also removed the pressure of exam preparation and allowed teachers to focus more on bridging the gap between school and university. This is particularly important in the light of such exciting offers for university study. Of our 160 Year 13 students, 10 hold offers to Oxford or Cambridge, 16 for Medicine, Dentistry or Veterinary Science, 2 have scholarships to US Universities (Rochester and NYU) and several more hope to attend global top 100 universities such as King's College (18) UCL (15), Manchester (13), Warwick (13), Imperial College (12) and Bristol (6). In total, 84% of our students hold offers to Russell Group Universities in the UK. We are confident that the grades awarded to these students will reflect our belief in them and look forward to results day on Thursday 13 August.

LAE Coronavirus Support Fund

Supporting our students, supporting our community

The Coronavirus pandemic affects all of us, and those with the least are often the hardest hit. The Northumberland Park ward of Tottenham, where the school is situated, is amongst the 2% most deprived wards in the country. Over half of our students were eligible for free school meals at secondary school. Even in these early stages of the COVID pandemic, members of our student body have already experienced bereavements in their immediate family.

Thanks to the generosity of our donors, students began to receive support on Monday 20 April, when the school term resumed. The difference this will make cannot be overstated.

Amongst other things, this fund will enable us to:

- Provide immediate financial and practical support to meet the impact of this crisis on our students and their families. We have identified 183 students who would most benefit from additional support for their basic necessities, like food. Providing these students with between £15 to £30 a week each, dependent on need, would cost the school in the region of £3,690 per week. Your donation will make a real and immediate difference to our students.
- To help our students and the wider Tottenham community by providing financial support.
- To support those members of the LAET community from the most deprived backgrounds on an ongoing basis through a hardship fund.

WE'RE OVER 75% OF THE WAY TO OUR £100,000 TARGET TO SUPPORT OUR MOST IN NEED STUDENTS AND LOCAL CHARITIES THROUGH THE CORONAVIRUS PANDEMIC.

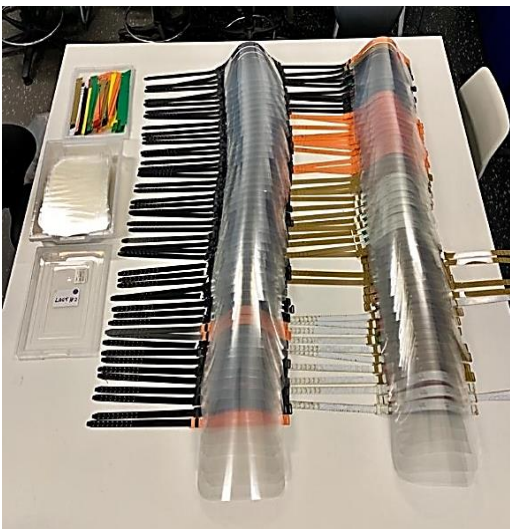

Face Shields

Utilising the high-tech Design Technology and Engineering equipment at LAET the school has been able to work with colleagues from Highgate School to produce in excess of 200 face shields a day to help the NHS cope with shortages in vital Personal Protective Equipment (PPE). Over 2,500 face shields have now been produced and distributed thanks to the efforts of staff from both schools working throughout the school holidays and the bank holiday weekend. We have been delighted by the phenomenal response from staff, giving up their free time to help.

Jan Balon said: "The school is proud to be offering what it can to help those on the front-line saving lives on a daily basis. We are pleased to know that, even without our students here currently, the equipment is being put to good use for such an important cause."

Adam Pettitt, Head, Highgate School, said: "I'm delighted that the ingenuity of teachers and support staff at Highgate and LAET is contributing to the national effort to combat the pandemic and hope that, in this and other ways, our schools can continue to support the brilliant work of the NHS to look after the ill and vulnerable while also protecting the health of our vital NHS staff."

Daniel Levy, Chairman, Tottenham Hotspur, said: "This is a fantastic example of a community working together to fight this pandemic and support our wonderful NHS. When we first opened the school, we invested in this equipment with the aim of this being the best educational offer in Tottenham. We've all seen on the news how vital protective equipment is on the front-line in our hospitals, so what better way to put the school's facilities to good use when the students are unable to benefit themselves."
